COMPANY DETAILS

GowringsVersa Mobility is one of the leading UK Wheelchair Accessible Vehicle (WAVs) specialists in the UK.

With over 50 years' experience, GowringsVersa Mobility are proud of our reputation for providing WAVs of the highest quality and innovative designs that represent excellent value for money.

Based in Thatcham, Berkshire -GowringsVersa Mobility design, manufacture and market a wide range of WAVs.

1963

2005-12

2013-19

2020-24

WAV Converter, Gowrings Mobility was founded in 1963 and operated from Thatcham, Berkshire.

The company invented the original 'wheelchair passenger vehicle'

Gowrings expanded its role within the mobility scheme, growing its market share and reputation as a trusted WAV provider.

During this period, the company broadened its vehicle conversion range, enhanced customer support, and established itself as a key player in mobility focused transport With growing demand for tailored solution, Gowrings launched tools like the "Used WAV MatchMaker" and improved it's online services.

The business strengthened its aftercare offering and introduced more flexible purchasing options, helping customers access affordable, quality approved WAVs

In November 2020, Gowrings Mobility acquired Bristol Street Versa, forming GowringsVersa Mobility.

This merger expanded the company's product range and customer base, reinforcing it's position as a leading WAV converter in the UK.

"The combination of a trustworthy vehicle and a superior conversion made Gowrings Mobility the ideal choice. We knew we could trust Gowrings Mobility to supply a high conversion"

(St. John Ambulance)

"Gowrings staff have been excellent throughout the process of viewing, ordering, converting and delivering our new vehicle. They are always helpful, friendly and professional, and kept me updated regularly regarding the progress of the order. Thank you Gowrings."

(Customer - Helen Daniels)

Qdos Event Hire is a leading provider of high-quality temporary accommodation, welfare, and toilet facilities for events across the UK.

Supporting independent organisers through to major broadcasters, Qdos offers versatile solutions for events of all sizes. Their portfolio includes cabins, modular buildings, and accessible units, ensuring reliable infrastructure.

Qdos's strong commitment to excellence and service has established them as a trusted partner for premium event delivery. Newship

Based in Reading & Wishaw.

2009-12

2013-16

2017-20 2021-24

Qdos Event Hire was founded in 2009, entering the UK events market with a focus on high quality temporary accommodation and welfare units.

Early projects included supplying events like Farnborough Airshow, quickly establishing Qdos as a reliable and professional service provider

Qdos broadened its presence at prestigious events, including the Ryder Cup and the Chelsea Flower Show.

The company began offering bespoke facilities tailored to VIPs, artists and broadcasters, raising its profile and earning a reputation for dependable flexible solutions

The business diversified into modular buildings and enhanced welfare units, addressing growing client demand.

It introduced premium dressing rooms and hospitality options, while expanding partnerships with festivals, TV productions, and sporting events across the UK.

Qdos introduced sustainable modular buildings, including the solar powered Containex range, and launched the premium plus line.

2024 - Qdos celebrated it's 15th anniversary at the Showman's Show

"We were really keen to find a reliable supplier with quality products that we could build a long term working relationship with. The Qdos team has been onsite at Goodwood since our Members' event back in March and I'm really pleased with how things have progressed.

The kit is in very good condition and well maintained, this coupled with excellent customer service and a can do attitude makes for a job well done."

(Goodwood Festival of Speed)

With over 270 years of heritage, Beatson Clark is a leading UK manufacturer of glass packaging.

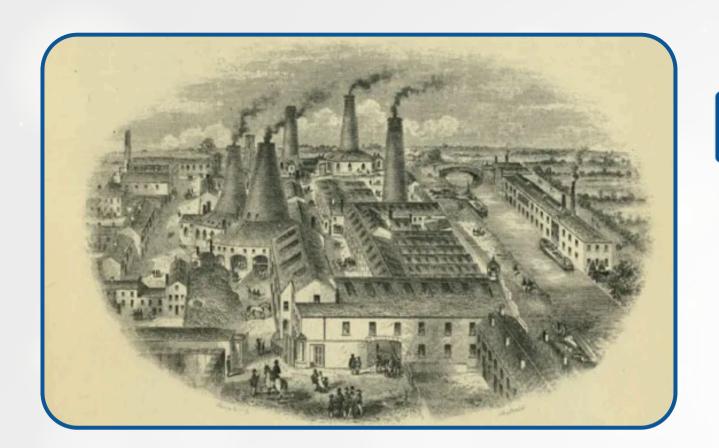

The company has a strong focus on bespoke container designs, supporting clients in the food, beverage, and pharmaceutical sectors.

Beatson Clark's in-house design and decoration services allow for fully customised solutions, while their commitment to sustainability ensures that packaging is both innovative and environmentally responsible.

Newship

Based in Rotherham.

BEATSON CLARK

HISTORY

1751

1914-45

1970-90

2000-24

Founded 1751 in Rotherham, Beatson Clark began supplying quality glass bottles to chemists and apothecaries.

Its early reputation for precision and reliability helped establish it as a cornerstone of Britain's packaging industry.

Beatson Clark adapted its operations to support the war effort. In WW1, many women joined the workforce in roles such as the warehouse and stoppering shop.

By WW2, women outnumbered men at the Stairfoot site, taking on production roles wile men served in the military.

The company also manufactured glass containers for armaments and medical supplies

Recognising the need to diversify, Beatson Clark expanded its product range during the 1970s & 80s to serve the food and beverage industries.

This strategic move allowed the company to tap into new markets, offering glass packaging solutions for a variety of consumable goods, and marked a significant shift in it's business operations

Continuing its commitment to innovation, Beatson Clark has recently introduced new design services, including bespoke embossing and decoration options, catering to niche brands worldwide.

Beatson has also increased it's global footprint, exporting approximately 20% of it's products

"Packaging is paramount to the look and feel of our products and therefore a supplier that understands this importance and is able to provide the style and quantity we require on time, along with excellent level of customer service, is what we need.

It was therefore an important decision to find the best glass container supplier that would be able to fulfil our brief and I'm pleased to say that Beatson Clark has managed to surpass our expectations"

(Cottage Delight)

Financial Growth

Achieved £88m turnover and £61m net assets by 2023, reflecting robust financial performance

Innovative Glass Decoration Launched in house spray coating facility, offering bespoke finishes to enhance brand identity

Enhanced Recycling Efficiency Invested £1m in automated recycling system, doubling cullet processing capacity

James Gibbons Format is a renowned UK manufacturer of architectural ironmongery and access control systems.

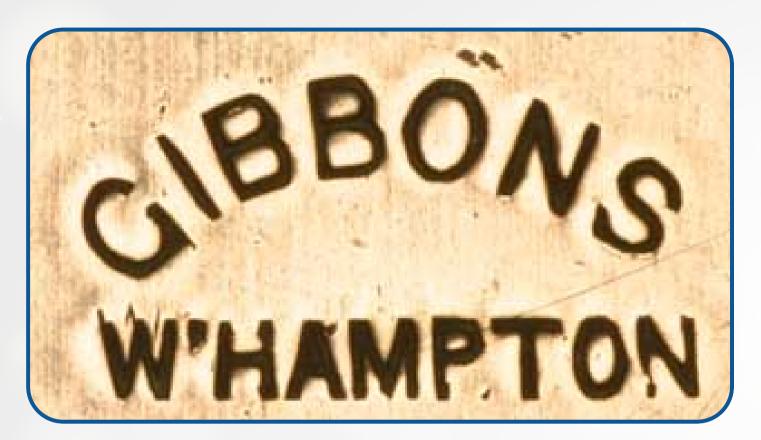

With a history spanning more than a century, the company offerd a broad range of high-quality products including door hardware and integrated electronic systems.

Known for its innovation and design expertise, James Gibbons Format is a trusted supplier to architects, contractors, and public sector clients throughout the UK.

Based in Derby.

James Gibbons Format® HISTORY

1670

1734-1930

1940-80

1990-24

James Gibbons established a workshop in Wolverhampton in 1670, quickly earning a reputation for superior craftsmanship.

His ironmongery adorned prestigious projects, including Sir Christopher Wren's architectural works. by the late 19th century, Gibbons was recognised as Britain's oldest lockmaker.

Bennetts began as Weatherhead Walters & Son in 1734 on Irongate, Derby. Under George Bennett's leadership from 1864, the company expanded its offerings to include agricultural tools, sports equipment, and homewares.

The store's unique ship like design and diverse product range made it a local landmark

Post WW2, both companies navigated industry shifts.

James Gibbons Format contributed to significant projects like the Barbican Centre and the Channel Tunnel.

Bennetts continued to expand its retail presence and maintaining it's status as a trusted supplier

James Gibbons Format and Bennetts were integrated together under Newship Group.

Together, they offer comprehensive architectural ironmongery solutions, from bespoke designs to large scale projects, maintaining a commitment to quality and customer satisfaction

James Gibbons Format®

INFORMATION

(Liverpool Conservation Centre)

"We visited the factories of all companies who tendered and selected James Gibbons Format for the quality of their product and their competitive pricing." (HSBC)

"As James Gibbons Format were supplying all the architectural ironmongery for the £8m project to turn the old railway depot into this unique conservation centre, we turned to them for the solutions to the access problems thrown up by the large works of art."

Jenks & Cattell Engineering is a longestablished UK engineering firm offering metal presswork, laser cutting, and robotic welding services.

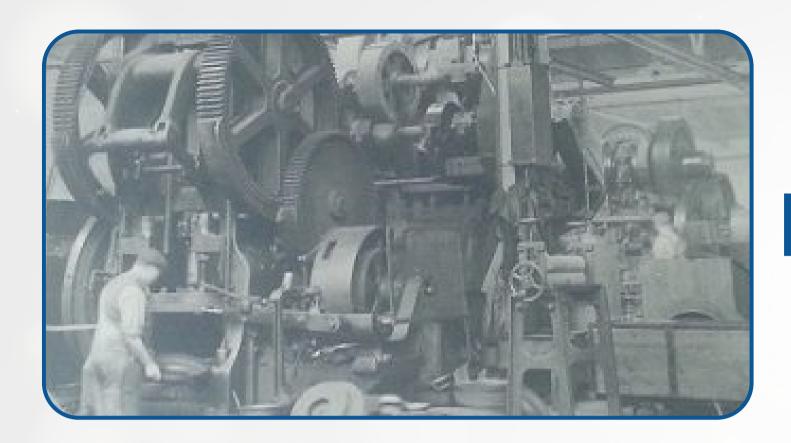

Founded in 1886, the company supports automotive, electrical, and industrial sectors with precision engineered components.

Known for its commitment to innovation, quality, and customer service, Jenks & Cattell delivers scalable manufacturing solutions for complex and high-volume production requirements.

Newship

Based in Wolverhampton.

1886-1930

1950-70

1980-99

2000-24

Established in 1886 by Albert Ernest
Jenks and John Henry Cattell in
Wolverhampton, the company began
as a stamper and bucket ear
manufacturer.

By 1900, it expanded into producing branded garden tools, which gained popularity and were sold through major retailers like Woolworths Post WW2, Jenks & Cattell became the UK's largest manufacturer of light washers and pressings.

The company diversified it's production to include automotive components, brake drums, gramophones, and parts for aircraft and ships. By 1961, it employed over 850 workers, reflecting significant growth

In the early 1980s, the company was among the UK's largest garden tool manufacturers.

1986 - Newship acquires the company and rebrand it to Jenks and Cattell Engineering Ltd.

1990 - The company achieved BS 5750 accreditation

1999 - Began exporting to Europe and South America

Jenks & Cattell invested in advanced manufacturing technologies, including robotic welding and CNC machining.

2021 - he company introduced the "Target Zero" philosophy, aiming for zero defects, accidents, variance and landfill.

2024 - Investment in a 750 tonne coil fed progression press

"Jenks and Cattell Engineering Ltd have developed very strong business relationships with leading OEMs, supplying tier 1, tier 2 and tier 3 into an extensive range of industries, including automotive, white goods, electrical, lighting, agricultural, heating, lock, construction and off-highway.

We focus on providing all of our customers with the same level of service with volumes ranging from 10 parts per week, to 10,000."

(Sales Director - Nick George)

Jenks and Cattell Engineering Ltd

Neachells Lane Wolverhampton West Midlands WV11 3PU

Tel: 01902 305530 www.jcel.co.uk sales@jcel.co.uk

Financial Growth

£13m turnover achieved in 2023, marking a 24% YoY increase and 44% growth over three years

Strategic OEM Partnerships

Secured £3m in projects with long term OEM partners in off highway and truck industries

Commitment to Sustainability

Implemented energy efficient practices, including LED lighting and zero landfill initiatives, enhancing environmental responsibility

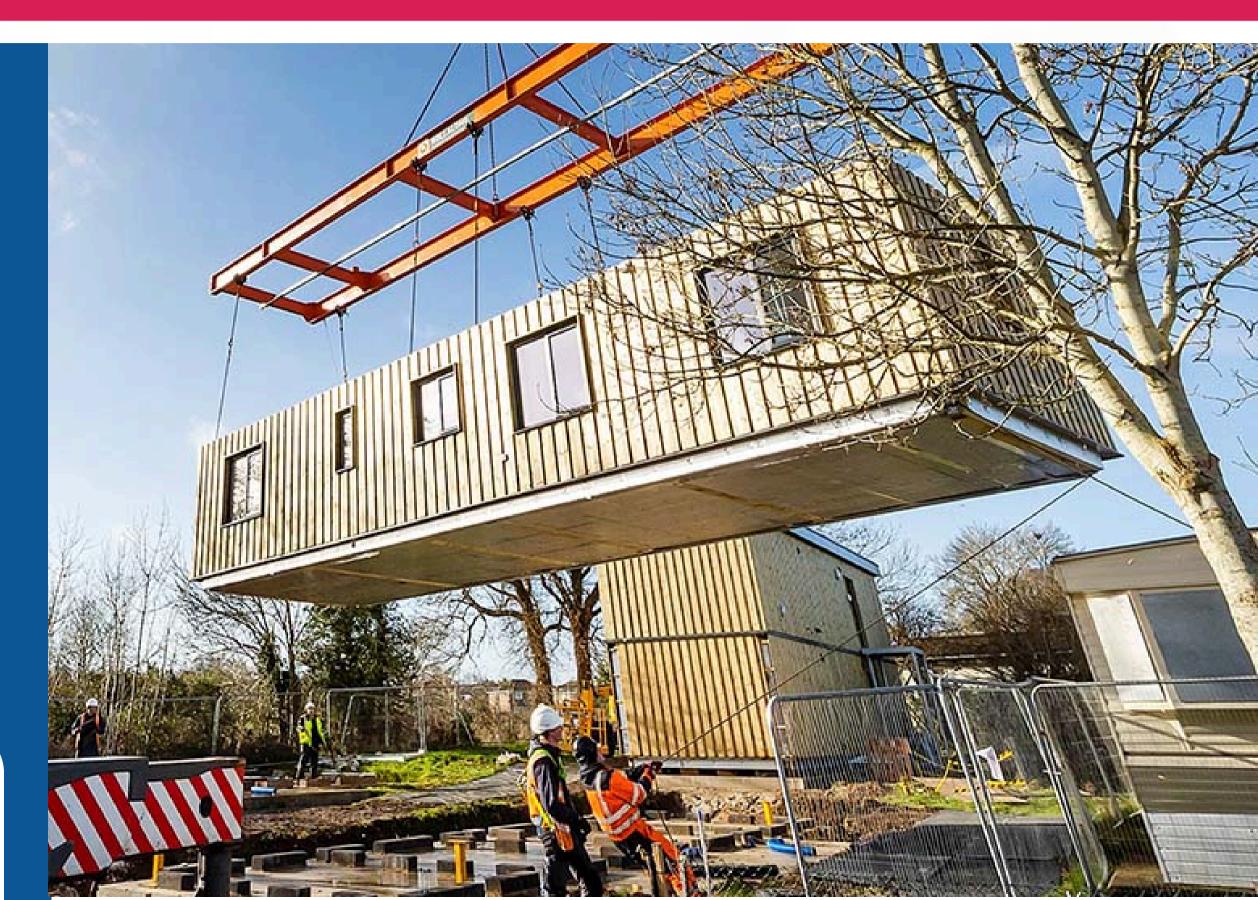

Rollalong is a UK-based manufacturer focused on off-site construction and modular building solutions.

Serving sectors such as defence, education, and housing, the company delivers buildings that meet rigorous quality and sustainability standards.

Rollalong's factory built modules reduce on-site disruption and offer faster project delivery, making them a preferred supplier for the long-term, high performance construction needs.

Based in Wimborne.

ROLLALONG HISTORY

1932-57

1958-77

1980-00

2010-24

Founded in 1932 as Rollalong Caravans Ltd in Cheltenham, the company specialised in manufacturing touring caravans.

Its early focus on mobile, durable structures laid the groundwork for future innovations in modular construction

 1958 - Rollalong designed lightweight, durable aluminium shelters for Hampshire County Council, replacing traditional "elephant" shelters.

1977 - The company had delivered its 50,000th unit, showcasing it's capacity to meet large scale public sector demands

Rollalong expanded into modular construction, supplying mobile medical units, dental clinics, and tool trailers.

This diversification demonstrated the company's adaptability and commitment to meeting varied client needs with offsite construction solutions

Today, Rollalong stands as the South's largest offsite design and build contractor, delivering modular buildings across residential, defence, education and healthcare sectors.

Notable achievements include joining Homes England's delivery Partner Dynamic Purchasing System and completing significant projects like the Army Basing Programme

ROLLALONG INFORMATION

"The team from Rollalong are experts at manoeuvring the units precisely into place, and the bungalow will be ready for occupation in a fraction of the time on site that it would take in a conventionally built home." (Councillor Phil Alford - Wiltshire Council)

"Seeing the physical modules coming into the factory has made it real in terms of how this project is going forward and Rollalong and Aspire Defense working so well together."

(Mark Duddy - Programme Director **Army Basing Programme)**

Pont Europe is a premier supplier of glass and plastic containers, serving industries such as pharmaceuticals, food, and cosmetics.

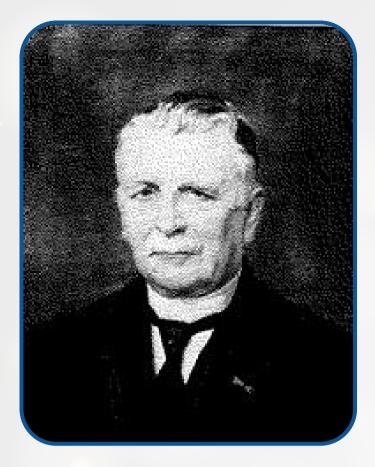

The company is known for offering sustainable, high-quality packaging solutions tailored to client needs.

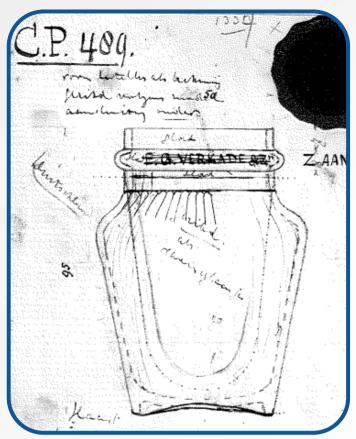

With a strong focus on customer service and innovation, Pont has established itself across European markets as a reliable partner for standard and bespoke packaging products.

National HQ's based in Almere, Manchester, Mönchengladbach & Paris.

1906-40

1977-98

2002-12

2013-24

Constant Pont began as trader, founding a packaging trading company in Amsterdam.

Pont provided key financial support and leadership during the 1930s crisis to keep the Leerdam's glass factory afloat through wartime challenges

Pont's support for Leerdam, the "Glass city", laid key foundations for Pont Europe's legacy and reputation

1977 - Pont Packaging BV acquired by Beatson Clark PLC, the main aim was to service the continental market - through later years it was decided to create Pont as a profit centre

1983 - French sales office is opened1998 - Sales office opened inMönchengladbach

2002 - Creation of Pont Emballage SAS with a focus by Newship Group to create a European Pont network

2006 - Creation of Pont Packaging GmbH.Pont Packaging BV moved to purpose-built facility in Almere

2007-10 - Sales offices opened in Poland and Munich

2012 - Johnson & Jorgenson Ltd acquired by PontPackaging BV - J&J becomes Pont Packaging Ltdin 2014

2013-17 -Pont Packaging GmbH moves to purpose built warehouse in Mönchengladbach.

Pont Packaging BV sales offices open in Sweden, Spain and Italy

2020 - New 42,000 sqft warehouse and office opens in Irlam, UK

2024 - Pont Europe offices certified according to FSSC 22000

"Over the years we have developed an excellent relationship with Pont Packaging who continue to provide first class service and support, whatever our requirements"

Adapted Vehicle Hire (AVH) is the UK's largest provider of specialist rental vehicles for disabled motorists.

The company offers a wide range of wheelchair accessible and adapted cars, tailored to suit both private and business users.

With vehicles featuring a variety of adaptions, AVH ensures inclusive, reliable mobility. Their dedication to service, safety, and accessibility has made AVH a recognised name in specialist vehicle hire.

Newship

Based in Reading.

2005-09

2010-19

2020-22

2023-25

Established in 2005, Adapted Vehicle Hire (AVH) began with a modest fleet of wheelchair accessible and adapted vehicles.

Recognising a gap in the market for flexible, nationwide rental services tailored to individuals with disabilities, AVH quickly expanded it's offerings, emphasizing customer centric solutions

2010 - AVH was acquired by Nexus Vehicle Rental, a move that bolstered it's operational capabilities and market reach.

2019 - AVH transitioned to become part of the Newship Group, aligning with a portfolio of companies dedicated to specialised vehicle and event hire services

AVH invested in modernising it's fleet with state of the art adaptions, including automated ramps and advanced control systems.

The company expanded it's services to cater to various sectors, such as healthcare providers, care homes, and occupational therapists, ensuring that clients received vehicle tailored to their specific needs.

Embracing the future of transportation, AVH has begun integrating eco-friendly vehicles into it's fleet, focusing on sustainability without compromising accessibility.

The company continues to innovate, exploring autonomous vehicle technologies and enhancing it's digital platforms

"The vehicle was delivered early and a thorough explanation on it's use given. It was big enough for me to fit mum and the hoist into the back which means for the first time in a few years we were able to visit my brother. I shall certainly be using AVH again as we are now able to travel around the UK."

(Customer - Linda McIntosh)

"The whole team were incredibly helpful, the vehicle was impeccable. We had a problem with the winch and Curtis went out of his way to fix it. Emma even came in on a Sunday to help out. I cannot recommend this company and the team enough."

(Customer - Steve Roche)

including regular vehicle updates to reduce
environmental impact

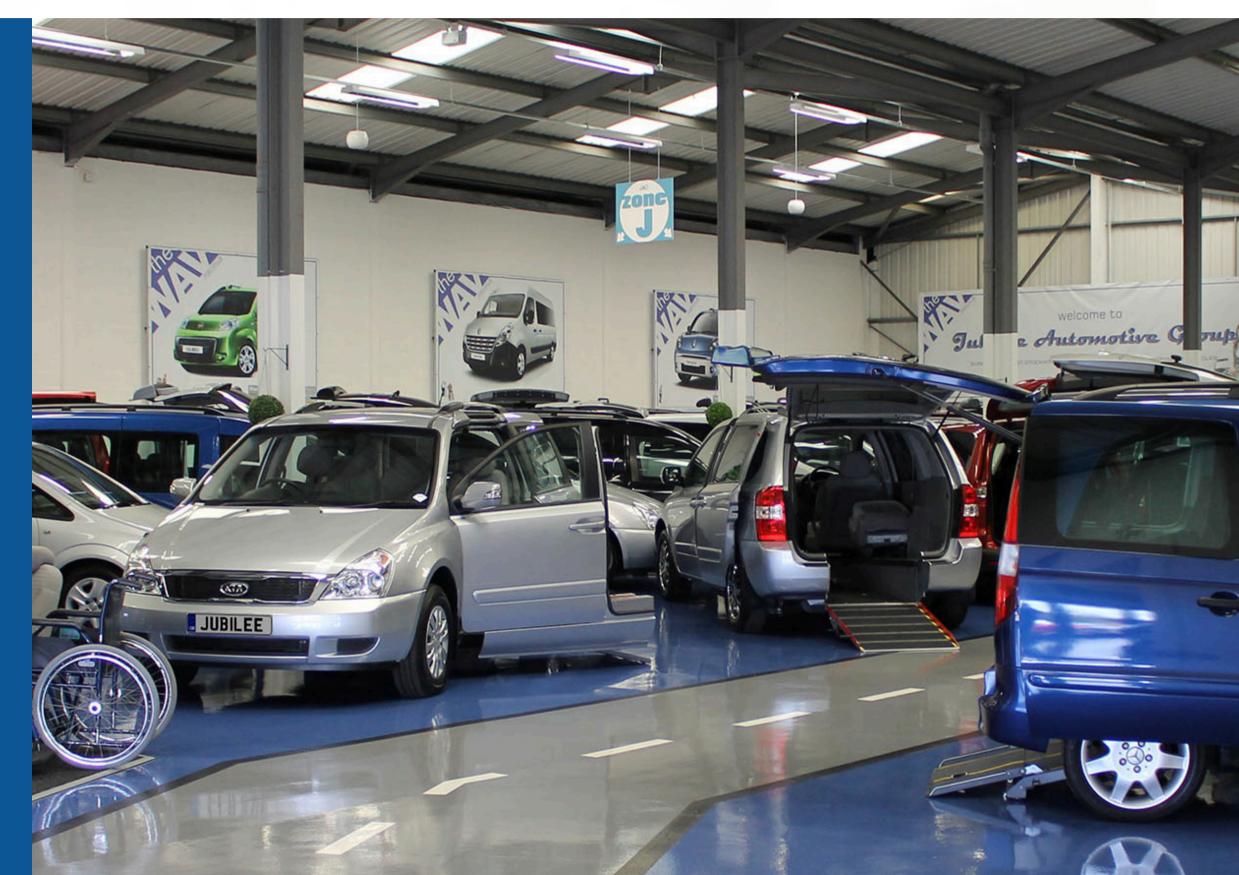

Jubilee Mobility is a trusted supplier of wheelchair accessible vehicles (WAVs) for customers across the UK and Europe.

Originally founded in 1992, the company has grown into one of Europe's largest providers of new and used WAVs.

Based in the West Midlands, Jubilee operates a large indoor showroom with an extensive choice of vehicles. As an RAC Approved Dealer, they deliver quality, reassurance, and tailored mobility solutions for every customer.

Based in Wednesbury.

HISTORY

1992

1993-00

2010-19 2020-25

Incorporated as Jubilee Automotive
Group in 1992, the company focus was
to provide cutting edge innovation
and expert craftmanship for
wheelchair accessible vehicles
(WAVs)

By the late 1990s, Jubilee had become a trusted supplier of WAVs, including a notable commission to build the Royal Coach delivered to Buckingham Palace in 1997 Throughout the 2010s, Jubilee expanded it's operations, establishing a purpose built showroom in Wednesbury, West Midlands, housing up to 250 RAC approved WAVs.

The company earned a recognition as one of the UK's most respected providers of disability vehicles, offering unparalleled service and a wide selection of accessible vehicles

Jubilee Automotive Group stands as Europe's largest stockist of new and used WAVs.

The company continues to innovate, introducing models like the UK's first VW Multivan WAV conversion, and remains committed to providing high quality, customised mobility solutions

"I was pleased with Wheelchair Accessible Vehicles for sale from Jubilee Automotive Group and would recommend them because they have an enormous selection of vehicles and the sales person, David had great product knowledge and nothing was too much trouble for him.

The showroom was clean, tidy and well laid out, the workshop was equally as impressive. Test drives and delivery were both excellent. Thank you for your kind support during the purchase of our first WAV."

(Customer - Mark Hamblett)
